

Water Resistance

L'Heure Luxe watches are designed to withstand a pressure of 3 bar (30m) - 30 bar (300m) depending on the information shown on the case-back).

A watch cannot be permanently guaranteed absolutely water resistant. It may be affected by ageing of the gaskets or by an accidental impact to the watch.

We recommend that you have our watches Water resistance occasionally checked throughout the watches life.

Care and Maintenance

Temperature

Do not expose the watch to sudden temperature changes (exposure to sunlight followed by immersion in cold water) or extreme temperatures (over 60C / 140F) or below 0C / 32F

Magnetic fields

Do not expose your watch to intense magnetic fields such as those generated by speakers, mobile phones, computers, refrigerators, or other electromagnetic appliances.

Shocks and impacts

Avoid thermal shocks or impacts, since they may harm your watch. In the event of a violent impact please have your watch checked.

Harmful Products

Prevent your watch from into any direct contact with solvents, detergents, perfumes, cosmetic products etc. since they may damage the bracelet, the case, or the gaskets.

Cleaning

We would advise you to clean your watch regularly (except for leather strap) using a soft cloth and lukewarm soapy water. After immersion in salt water, rinse your watch in freshwater and leave it to dry completely.

Services

Like any precision instrument a watch must be serviced regularly for optimum operation. As a general rule we recommend that you have your watch checked every 3 to 4 years. However, please note that depending on the climate and the conditions of use of the watch, a shorter interval may be required. To benefit from the highest standards of service and to ensure your guarantee remains in force. Please always contact L'Heure Luxe for advice and / or service recommendations.

Availability of spare parts

From the stoppage date of the watch production L'Heure Luxe guarantees the availability of its spare parts for a minimum period of 5 years for its watches. If for any reason production of a particular spare part is stopped or deferred, L'Heure Luxe reserves the right at its sole discretion to offer the customer an alternative solution.

Replacing the Battery

L'Heure Luxe quartz watches have the incomparable precision of quartz. Their power reserve is usually more than 2 years in continuous use (depending on how often the watch functions are used). We would therefore recommend that you change the battery every 18-24 months in order to maintain the highest precision.

Once the battery has been drained it must be replaced without delay. Battery type: silver oxide and zinc button cell. 1.55V No.394.

Collection and treatment of end of life quartz watches

This symbol indicates that this product should not be disposed of as household waste. It must be returned to an approved collection point. By following this procedure you will contribute to both environment and human health. Recycling materials will help to conserve natural resources
